

REGIONAL CO-ORDINATION CELL

The departure of A Company to Rwanda in August of this year saw many families anxiously left in Australia. To co-ordinate welfare support for these families the Battalion has established a Regional Welfare Co-ordinators Cell.

The cell is maintaining regular checks on families

of Battalion members as well as co-ordinating and conducting several functions. From these functions the Cell will endeavour to continue to send to the contingent photographs and video tapes of families and friends.

Until the contingent returns.....
